AP Chemistry Summer Assignment 2018

The AP Chemistry summer assignment will include problems from the Modern Chemistry textbook and a 1 page handout that is to be studied, put on flashcards, and **memorized**.

The **summer work and flashcards** will be collected the first day of school and a quiz will be given that covers the summer book work and flashcard material. ***The quiz is on the first day of school, yes the first day!***

AP Chemistry is designed to be the second year of chemistry after successfully completing general chemistry. The textbook you will be using for the summer work is a general chemistry textbook. AP Chemistry textbooks will be issued in the fall.

AP Chemistry Summer work: Modern Chemistry Textbook

Chapter 2	Pg's 42, 60	Section review 1-5, #s 33-43
Chapter 2	Pg 47	Significant figures rules - write on a flashcard
Chapter 7	Pg 235	#s 1-25 odds only
Chapter 8	Pg 271	#s 34-36
Chapter 8	Pg 266	Table 8-3 Activity Series of the Elements. Metals and Non-metals. Write on a flashcard.

Refer back to the chapter examples when answering the questions.

Do not wait until the last minute to get this work done, study the material and do well on the first quiz of the semester. Be ready to turn this work in on the first day. There is no set number of flash cards; I am looking for them to be thorough. I do not take late work.

My contact information is: lgeibel@egusd.net

If you have questions don't hesitate to contact me.

I look forward to seeing you all at the beginning of the next school year.

Have a great summer ☺
